

MEDICINES WASTAGE

We are asking ALL our patients to **HELP US, HELP YOU!**

Over ordering of regular medication or automatic ordering of medication which is no longer needed is a big problem and costs the NHS approximately **£300 Million every year.**

WE NEED YOUR HELP!

- Please only order medication which you need
- Do not stock pile - medications go out of date
- Let us know if there is medication on your repeat list that you no longer need
- Let us know if your **pharmacist** is ordering medication that you do not need.
